- A. The Owner has endeavored to estimate the proposed quantities as accurately as possible using the latest information available for the project.   - B. In addition, it will be the Contractor's responsibility during construction to inform the Engineer when any item of work (excluding lump sum items) is within 90% of the total contract quantities.
  - C. To affect substitution or alternative work operation, a "no cost" or "cost" change order signed by the contractor must be submitted to the County Engineer for approval. No work shall be performed prior to approval of such change order.

The quantities for these contingent items may be increased or decreased without any adjustment to the Contract unit price bid or the contingent items may be deleted entirely from the Contract by the Engineer without negotiation. The Contractor will not be allowed to submit a claim against the Owner for any adjustment to the Contract unit price bid should the contingent items be increased, decreased or eliminated entirely.

30. SUPERINTENDENCE BY CONTRACTOR: At the site of work, the Contractor shall employ a construction superintendent or foreman who shall have full authority to act for the Contractor. It is understood that such representative shall be acceptable to the Engineer.

31. ENGINEER AUTHORITY: The Engineer shall give all orders and directions contemplated under this Contract and Specifications relative to the execution of the work. The Engineer shall determine the amount, quality, acceptability, and fitness of the several kinds of work and materials which are to be paid for under the construction thereof. The Engineer's estimates and decisions shall be final and conclusive, except as herein otherwise expressly provided. In case any questions shall arise between the parties hereto relative to said Contract or Specifications, the determination or decision of the Engineer shall be a condition precedent to the right of the Contractor to receive any money or payment for work under Contract affected in any manner or to any extent by such question.

The Engineer shall decide the meaning and intent of any portion of the Specifications and any Plan or Drawings where the same may be found obscure or be in dispute. In case of dispute arising between the contractor and any inspector as to the materials furnished or the manner of performing the work, the inspector shall have the authority to reject materials or suspend the work until the question at issue can be referred to and decided by the Engineer.

B. The inspectors shall perform such other duties as are assigned to them. They shall not be authorized to revoke, alter, enlarge, or release any requirements of these Specifications, not to approve or accept any portion of work, not to issue instructions contrary to the Plans and Specifications. Inspectors shall in no case act as foremen to perform other duties for the Contractor, nor interfere with the management of the work by the latter. Any instructions which the inspectors may give the Contractor shall in no way be construed as binding the Engineer or the Owner in any way, nor releasing the Contractor from fulfillment of the terms of the Contract.

34. USE OF PREMISES AND REMOVAL OF DEBRIS: The Contractor expressly undertakes at its own expense:
- A. To take every precaution against injuries to persons or damage to property.
  - B. To store its apparatus, materials, supplies, and equipment in such orderly fashion at the site of the work as will not unduly interfere with the progress of its work or the work of any other Contractors.

36. SUSPENSION OF WORK: Should the Owner be prevented or enjoined from proceeding with work or from authorizing its prosecution either before or after its prosecution, by reason of any litigation, the Contractor shall not be entitled to make or assert claim for damage by reason of said delay, but time for completion of the work will be extended to such reasonable

This shall also include unsatisfactory prosecution of the work, failure to furnish required submittals, and/or unapproved testing procedures.

In preparing estimates, the material delivered on the site and preparatory work done may be taken into consideration.

All material and work covered by partial payments made shall thereupon become the sole property of the Owner, but this provision shall not be construed as relieving the Contractor from the sole responsibility for the care and protection of materials and work upon which payments have been made or the restoration of any damaged work, or as a waiver of the right of the Owner to require fulfillment of all the terms of the Contract.

The Contractor agrees that it will indemnify and save the Owner harmless from all claims growing out of the lawful demands of subcontractors, laborers, workmen, mechanics, material men, and furnishers of machinery and parts thereof, equipment, power tools, and all supplies, including commissary, incurred in the furtherance of the performance of this Contract. The Contractor shall, at the Owner's request, furnish satisfactory evidence that all obligations of the nature hereinabove designated have to be paid, discharged, or waived. In paying any unpaid bills of the Contractor, the Owner shall be deemed the agent of the Contract, and any payment so made by the Owner, shall be considered as a payment made under the Contract by the Owner to the Contractor, and the Owner shall not be liable to the Contractor for any such payment made in good faith.

**COUNTY OF UNION**  
**Procurement Services,**  
**SPECIAL PROVISIONS**  
**FOR**  
**Union County Road Resurfacing**

.....

**THE PROJECT**

The Union County Department of Public Works is seeking competitive bids from qualified contractors for the purpose of resurfacing various roads and streets within Union County, SC. It also intended that the contract will be used to address Union County’s hot mix asphalt needs during the life of the contract. A list of roads, containing length, width and approximate depth of paving has been provided as an attachment to this document (EXHIBIT A). Due to a finite budget, and the uncertainty of actual bid amount, the County may add or delete roads in their entirety or adjust either, the length, width and/ or depth to meet budgetary limits. Decisions may be made during construction to change depths of asphalt, alter widths or add extra base as the situation dictates at the discretion of the ENGINEER. Described herein are the Standard Specifications that detail specific items of work. The omission of a certain specification does not relieve the contractor from his obligation to provide to Union County all work according to SCDOT specifications as they relate to the resurfacing work activities as described in this Bid Document.

**Note 1:** At the time of the bid opening, Union County CTC Funds available to do most of the roads on the Union County Road List (EXHIBIT A), unless bids are excessively high. Additional funds are expected in fiscal year 2025 to resurface more streets and roads within the county. Also, funds are expected to be available to resurface parking lots and other paving projects within the time limits of the contract awarded for this project. However, Union County is under no obligation to award the initial contract nor future additions to contract if it chooses not to do so.

**Note 2:** Due to low traffic volumes on the roads to be resurfaced, no permanent construction signs will be necessary; however, but proper temporary traffic control according to SCDOT guidelines for Work Zone Safety must be set up during all construction activity. There will **not** be a payment for traffic control and it is considered incidental to construction and the cost of necessary traffic control must be absorbed in the unit prices of other items in the contract.

**Note 3:** Two county roads on the county road list, Lula Green Rd and John Meador Rd, both with A priorities, are existing gravel roads. These roads will require reshaping to a desired cross section, setting up the stone to obtain desired compaction and prepping for application of the surface course. In many cases stone base will need to added to the existing stone and incorporated in the base course to reach the desired compacted base. The amount of stone included in bid package is strictly an estimate and no testing was done to make that determination. The amount of stone to be added will determined by the Engineer and contractor’s field superintendent.

**Note 4:** The CONTRACTOR will be required to prepare all pavements to be resurfaced, including clipping edges of pavement, cleaning pavement surfaces free of dust and dirt by using power broom and/or blower. Contractor must ensure an even coat of tack is placed upon the pavement surface prior to resurfacing with Hot Asphalt Mix specified.

**Note 5:** If a change in Quantities is warranted during construction, it shall be requested and approved in accordance with the “Estimated Quantities” provision as stated in the General Conditions.

**Note 6:** All work done by the Contractor must be in accordance with the South Carolina Department of Transportation 2007 Standard Specification for Highway Construction unless otherwise instructed by Union County Department of Public Works and be warranted for a period of 1-year from acceptance of completion against any defect, failure, etc. caused by the materials, workmanship, etc. The absence of any specification in this bid document does not relieve the CONTRACTOR of the responsibility to perform **all** construction in accordance with SCDOT 2007 Standard Specifications.

WITNESSETH: That for and in consideration of the payments and agreements hereinafter mentioned:

2. The CONTRACTOR will furnish all of the material, supplies, tools, equipment, labor and other services necessary for the construction and completion of the work described herein.
3. The CONTRACTOR will commence the resurfacing of the roads on the Union County road list as provided for in the BID DOCUMENT and any subsequent Addendum to said document within ten (10) days of receipt of the NOTICE TO PROCEED and will complete the same within **One Eighty (180) consecutive calendar days** from NOTICE TO PROCEED, as described in Bid Package, unless the period for completion is extended otherwise in writing by the COUNTY.

5. The CONTRACTOR and County agree that this contractual agreement is to continue beyond the initial list of roads used to arrive at the contractual amount above. It is anticipated that funds will be appropriated to pave an additional list of roads in 2025 and county owned parking lots. It is also anticipated that funds will be appropriated for some parking lots prior to completion the initial paving. The contractor agrees to complete these future resurfacing projects at the same unit cost prices as submitted on the Bid Forms used to arrive at the above contracted amount subject to any provisions for increases in the BID DOCUMENT
- . The COUNTY will pay to the CONTRACTOR in the manner and at such times as set forth in the BID DOCUMENT such amounts as required by the BID DOCUMENT. A **10%** retainage will be held from each monthly invoice for road and street paving. County may decrease this retainage to **5%** when Seventy-Five Per Cent (75%) of total roads have been completed by CONTRACTOR. Final payment will be made by COUNTY on completion and acceptance of all work. COUNTY will not withhold a retainage amount for individual paving projects such as parking lots. CONTRACTOR will invoice COUNTY at the completion and acceptance of each individual project and County will pay promptly.

7. This AGREEMENT will expire, December 30, 2024 unless extended in writing and agreed upon by both Parties. It is further agreed that if both parties mutually agree, this contract may be extended under the same terms and conditions for one additional year from the expiration date.
8. The CONTRACTOR agrees that jurisdiction over any dispute arising under or in relation to the contract is vested in the Sixteenth Judicial Circuit with venue in the Union County Court of Common Pleas.
9. This AGREEMENT shall be binding upon all parties hereto and their respective heirs, executors, administrators, successors, and assigns.
